PROFESSIONAL SUMMARY

Data Analyst with hands-on experience in SQL, Power BI, Excel, and Python for exploratory data analysis, predictive modeling, and business intelligence reporting. Skilled in writing complex SQL queries (joins, aggregations, subqueries) for data extraction, building interactive Power BI dashboards with DAX-based KPIs and data models, and using Python (Pandas, NumPy, Matplotlib, Flask) to uncover data-driven insights. Experienced in validating data pipelines, performing root-cause analysis on data discrepancies, and translating business requirements into clear, actionable reporting. Certified in Data Analytics and Power BI, with strong exposure to AWS and Azure cloud platforms.

TECHNICAL SKILLS

SQL & Databases: MySQL, joins, subqueries, aggregations, filtering, relational data validation, ETL fundamentals

BI & Visualization: Power BI (data modeling, DAX, KPI cards, slicers), Tableau, dashboard development

Programming: Python (Pandas, NumPy, Matplotlib, Flask), EDA, regression & classification modeling, ARIMA forecasting

Excel: VLOOKUP, XLOOKUP, Pivot Tables, data cleaning and validation

Cloud Platforms: AWS (EC2, S3, IAM), Microsoft Azure (VMs, Lambda, Azure)

Core Concepts: Statistics, Machine Learning, OOP, Data Structures & Algorithms, Agile, cross-functional collaboration

PROJECTS

Cloud-Ready Sales Forecasting Dashboard | Python, Arima, Power BI

- Built an end-to-end sales forecasting pipeline combining Python and Power BI, performing exploratory data analysis and validating the full workflow from CSV ingestion through KPI output.
- Designed Power BI KPIs and DAX measures to surface trend predictions; executed 15+ test scenarios to verify forecast accuracy and documented results to support reproducibility.

Customer Behavior Dashboard | Power BI, Excel

- Developed an interactive Power BI dashboard with custom data models, DAX calculations, KPI cards, and slicers to surface sales trends and revenue insights from large datasets.
- Designed 20+ validation scenarios to ensure accurate KPI representation; identified and resolved 5+ data discrepancies, improving data accuracy and consistency in reporting.

SQL Sales Data Validation | MySQL

- Wrote and optimized SQL queries using joins, aggregations, and filtering to build analytical sales reports; validated query outputs against expected datasets for correctness and completeness.
- Logged and tracked data anomalies through a full defect lifecycle (identification, analysis, resolution, retest), supporting reliable, ETL-style data reporting.

EDUCATION

Master of Computer Applications (MCA) 2024 - 2026

Tulshiramji Gaikwad-Patil College of Engineering and Technology, Nagpur | RTM Nagpur University

Bachelor of Computer Applications (BCA) 2021 - 2024

Gopikabai Sitaram Gawande College, Umarkhed | SGBAU Amaravati University

CERTIFICATIONS

- Data Analyst Certification - PW Skills
- Power BI Fundamentals Certification
- Microsoft Excel Certification
- AI and Machine Learning Internship Certification
- AI in HR Management - NPTEL
